T.R.U. BOSS SERIES

After shooting a Boss Series release, you will realize that it is the finest, most sensitive, and by far the most accurate release made today. Settle into your anchor point and enjoy knowing you're holding the best money can buy!

The Choice of Today's Professionals!

Never draw a bow to set release sensitivity!

Warning: Adjustment screw tightened too much in a clockwise direction may cause premature firing.

Warning: Use Talon Head Only when shooting a small rope loop on bowstring.

TOMORROW'S RESOURCES UNLIMITED

This product is guaranteed against defects in material and workmanship not caused by normal wear. If you experience any problem with this product, UPS ship to: TRU, 131 Crennel Dr, Madison Heights, VA 24572 or Mail to: TRU, P.O. Box 1180, Madison Heights, VA 24572. All returns must have a return authorization number. You will receive top priority assistance. Call (804) 929-2800 for authorization number. Packages will not be accepted without return authorization number.

WHY ARE THERE STICKERS IN YOUR RELEASE?

The stickers are more than just decoration. They cover machined slots that accept a strap connection called the V-Lok Strap! This special strap can be purchased from wherever you bought this release!

Why Is There An Extra Dowel Included With Your Release?

To increase trigger pressure, insert the extra dowel into the top trigger hole of the release; press it; press out other dowel.

To Achieve Ultimate Performance:

- 1▶ Turn trigger sensitivity adjustment screw counter-clockwise until screw is flush with handle located on front side of index finger position.
- 2▶ Turn trigger travel screw clockwise until cocking mechanism will not hold, turn screw 1/4 turn counter-clockwise making sure cocking mechanism holds every time.
- 3▶ Set sensitivity screw clockwise to your desired sensitivity.
